

Index to Authors

A

ABRAHAM, L. G. . . .	Tonlars	117
AFFEL, H. A. . . .	Broad-Band Carrier Systems	242
ALFORD, R. S. . . .	Crosstalk Measurements	377
ARLT, H. G. . . .	Impact Tester for Organic Finishes	108
ARMITAGE, L. . . .	A Wide-Range Oscillator for the Higher Frequencies	121

B

BAILEY, AUSTIN . . .	Automatic Comparator for Characters on Perforated Teletypewriter Tape	52
BAIN, J. C. . . .	Remote Control for Radio Receivers	49
BARNEY, C. R. . . .	Apparatus Card Catalog	85
BARSTOW, J. M. . . .	A New Noise Meter	252
BEAUMONT, W. M. . .	Circuits for 101-Type Key Equipments	374
BEST, F. H. . . .	Decibel Meters	167
BLACK, K. C. . . .	Repeaters for the Coaxial System	385
BLESSING, E. C. . . .	Modulation in the G1 Carrier System	210
BOUMAN, B. M. . . .	A New Chair for Operators	170
BURNS, R. . . .	Conditioning Insulating Materials for Test	286
BURROWS, C. R. . . .	The Surface Wave in Radio Transmission	321

C

CAMPBELL, W. E. . . .	Non-Spreading Lubricating Oils	149
CASH, C. C. . . .	Protection Against Lightning Interference	125
COWLEY, G. W. . . .	Volume Limiter Circuits	311
COY, J. A. . . .	Terminal Equipment for Telephotography	293

D

DAHLBOM, C. A. . . .	A Telegraph Signal Biasing Set	193
DANIELSON, O. H. . . .	Remagnetizer for Ringer Magnets	190
DE KAY, R. D. . . .	A Diverter-Pole Generator for Battery Charging	382
DENNIS, F. R. . . .	Measurement of Attenuation at High Frequencies	247
D'HEEDENE, A. R. . . .	New Carrier System Filters	157
DRING, A. W. . . .	Out-of-Block Protector	15
DUDLEY, HOMER	Synthesizing Speech	98

E

ELIASON, O. C. . . .	A New Ring for Distributing Frames	269
ERICKSON, E. C. . . .	Measuring the Plating on Screw Threads	187

F

FAY, C. E.	A Half-Meter Tube	178
FINCH, J. M.	Paper Insulation in Telephone Construction	197
FROBERG, M. A.	Copper-Oxide Rectifiers for Telephone Power Supply	81

G

GOULD, K. E.	Fields Caused by Remote Thunderstorms	221
GREEN, E. I.	The Coaxial Cable System	274

H

HAMPTON, L. N.	Applying Solderless Cord Tips in the Field	266
HENNEBERGER, T. C.	Installing the Coaxial Cable	329
HERRIOTT, W.	A New Message-Register Camera	257
HIBBARD, F. H.	A Watch-Rate Recorder	202
HOPKINS, H. F.	Measuring Loudspeaker Response Automatically	234

I

INGRAM, S. B.	The 313A Vacuum Tube	114
-----------------------	--------------------------------	-----

J

JENSEN, A. G.	Group Terminal for the Coaxial System	361
JEWETT, F. B.	Individualism in Research	333
JEWETT, F. B.	Social Implications of Research	62

K

KEMP, A. R.	Rubber Research	34
KING, A. S.	A Line-Busy Recorder	316
KREISHER, C.	Construction of the Coaxial Cable	325

L

LOCKE, G. A.	Teletypewriter Exchange System	7
LOCKROW, L. L.	Protecting Communication Circuits at Power Stations	92
LUCAS, F. F.	A Metallographic Microscope of Exceptional Power	103

M

MALONE, W. F.	Equipment Features of 101-Type Key Equipments	370
MARTIN, J. J.	Laminated Phenolic Insulating Materials	129
MARTIN, R. P., JR.	Talking Batteries	138

McCANN, T. A. . . .	Developing the 106A1 Regenerative Telegraph Repeater	45
MOORE, C. R. . . .	Telephone Hand Tools	21
MORRISON, J. F. . . .	Directive Antenna Solves Coverage Problem	17
MORTON, E. R. . . .	A New Timing Motor for Oscillographs	229
MUNSON, W. A. . . .	Loudness Measurements	306

N

NORDENSWAN, R. . . .	A Modernized Hearing Meter	163
NORMAN, N. C. . . .	A Noise Reducer for Radio-Telephone Circuits	281

P

PETERSON, A. C., JR. . . .	Around-the-World Radio Echoes	216
PETERSON, L. C. . . .	Carrier for Coaxial Groups	357
PFANNENSTIEHL, H. . . .	Telephotograph Transmitter and Receiver	289
PFLEGER, K. W. . . .	Determining Circuit Characteristics at Low Frequencies	41
PULLER, G.	New Reproducer System for Small Theatres	25

Q

QUARLES, D. A. . . .	Buried Telephone Wire	66
----------------------	---------------------------------	----

R

REYNOLDS, J. N. . . .	The Crossbar Switch	338
-----------------------	-------------------------------	-----

S

SAMUEL, A. L.	A Power-Amplifier Tube for Ultra-High Frequencies	344
SELLEW, W. H.	Apparatus Specifications	154
SHOWER, E. G.	High-Frequency Supply for Degassing	391
SLONCZEWSKI, T.	Automatic Measurement of Transmission	56
SOFFEL, A. R.	How Pitch Changes with Loudness	145
SOFFEL, A. R.	Sound-Reinforcing System for Hollywood Bowl	225
STACY, L. J.	Vacuum Tube Improves Selective Ringing	111
STAEBNER, H. H. . . .	A Machine for Testing Enameled Wire	76

T

THORPE, K. O.	An All-Purpose Radio Receiver for Mobile Applications	2
TRUCKSESS, D. E. . . .	Rectifier for Telephone Power Supply	350
TRUCKSESS, D. E. . . .	Regulated Plate Supply	298

W

WHITE, A. H. . . .	Molecular Rotation in Organic Crystals	11
WOLPERT, F. S. . .	A High-Quality Headset for Monitoring	353

Y

YAGAR, W. A. . . .	Relaxation Time in Dielectrics	88
YOUNG, C. H. . . .	A 5-Megacycle Impedance Bridge	261
YOUNG, L. G. . . .	A New 5-KW Broadcast Transmitter	72
YOUNG, L. G. . . .	Stabilized Feedback for Radio Transmitters	182

Index of Subjects, Volume XV

(Roman numerals refer to Picture Sections)

A

Antennas

Control Panel for Directive Antenna (Picture)	I
Directive System Solves Coverage Problem	<i>Morrison</i> . . . 17

Apparatus

Card Catalog	<i>Barney</i> . . . 85
Specifications	<i>Sellew</i> . . . 154
Audiometer, No. 6A	<i>Nordenswan</i> . 163

B

Battery Charging, Diverter-Pole Generator for	<i>de Kay</i> . . . 382
Battery, Talking	<i>Martin</i> . . . 138

Biographies and Personalities

(Authors' Biographies Printed at End of Issues Contain-
ing Their Articles)

Blackwell, O. B., Elected Vice-President	156

The Renaissance of Physics by K. K. Darrow	133
Booths, Mercury Switch for Telephone	201
Bridge, 5-Megacycle Impedance	<i>Young</i> . . . 261

C

Cables

Broad-Band Carrier Systems	<i>Affel</i> . . . 242
Buried Telephone Wire	<i>Quarles</i> . . . 66
Calibrating Pressure Gauges (Picture)	241

Coaxial System

Cable Being Drawn into Duct (Picture)	Oct.-III
Cable Crossing Delaware River at Trenton (Picture)	Dec.-IV
Carrier for Coaxial Groups	<i>Peterson</i> . . . 357
Construction of Cable	<i>Kreisher</i> . 320, 325
Demonstration of Coaxial System	162

Cables (Continued)

Coaxial System

General Description	<i>Green</i> . . .	274
Group Terminal for Coaxial System	<i>Jensen</i> . . .	361
Installing Cable	<i>Henneberger</i> . . .	329
Repeater for the Coaxial System	<i>Black</i> . . .	385
Service Trial of Coaxial System		360
Splicing Coaxial Cable (Picture)		90
Testing Unattended Repeater (Picture)		181
Life Test of Cable Pressure Testing Plugs (Picture)		343
Repairing Ring Cuts (Picture)		368
Camera, Message Register	<i>Herriott</i> . . .	257
Camphor Crystals, Molecular Rotation in	<i>White</i> . . .	11
Card Catalog for Apparatus	<i>Barney</i> . . .	85

Carrier Systems

Broad Band	<i>Affel</i> . . .	242
Carrier for Coaxial Groups	<i>Peterson</i> . . .	357
Filters for GI System	<i>D'heedene</i> . . .	157
Modulation in GI System	<i>Blessing</i> . . .	210
Volume Limiter Circuits for Type-C System	<i>Cowley</i> . . .	311

Central Office Equipment

Apparatus Specification	<i>Sellew</i> . . .	154
Chair for Operators	<i>Bouman</i> . . .	170
Copper Oxide Rectifiers for Telephone Power Supply	<i>Froberg</i> . . .	81
Crossbar (see Crossbar System)		
Diverter-Pole Generator for Battery Charging	<i>de Kay</i> . . .	382
Line-Busy Recorder	<i>King</i> . . .	316
Message Register Camera	<i>Herriott</i> . . .	257
Non-Spreading Lubricating Oils	<i>Campbell</i> . . .	149
Rectifier for Telephone Power Supply	<i>Trucksess</i> . . .	350
Regulated Plate Supply	<i>Trucksess</i> . . .	298
Ring for Distributing Frames	<i>Eliason</i> . . .	269
Solderless Cord Tips	<i>Hampton</i> . . .	266
Study Dust with the Impinger	<i>Wadlow</i> . . .	30
Talking Battery	<i>Martin</i> . . .	138
Telephone Trunking Investigations (Picture)		209
Chairs, Operators'	<i>Bouman</i> . . .	170

Chemical Laboratories

Analyzing Gas from Evacuated Graphite (Picture)		176
Detecting Minute Quantities of Copper (Picture)		Feb.-1
Heat Treatment of Magnetic Alloys (Picture)		315
Impact Tester for Organic Finishes	<i>Arlt</i> . . .	108
Measuring Viscosity of Shellac (Picture)		97
Molecular Rotation in Organic Crystals	<i>White</i> . . .	11
Non-Spreading Lubricating Oils	<i>Campbell</i> . . .	149
Paper Insulation in Telephone Construction	<i>Finch</i> . . .	197
Relaxation Time in Dielectrics	<i>Yager</i> . . .	88

Chemical Laboratories (Continued)

Rubber Research	<i>Kemp</i>	34
Study of Contact Points by Microanalysis		232
Thermal and Electrolytic Decomposition of Paper (Picture)		305
Thin Crystals		238
Clocks, Quartz Crystal		128
